## Introduction

The following submission has been prepared by All Urban Planning Pty Ltd for Homes Tasmania in support of a housing land supply order under the *Housing Land Supply Act 2018* (HLSA). The proposed order is to rezone the land at 10 Binalong Road, Mornington (the site) from Community Purpose to General Residential under the *Tasmanian Planning Scheme – Clarence Local Provisions Schedule* (planning scheme).

## 1. PART 1 – DETAILS OF THE LAND

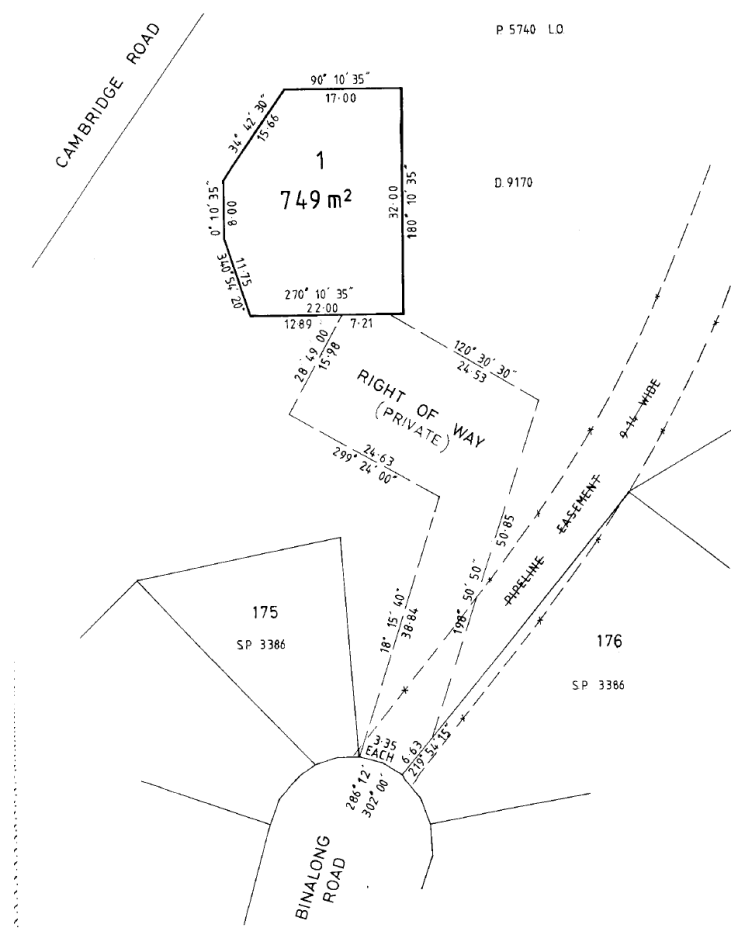

### 1.1. Site information

The site (Figures 1 and 2) is a landlocked title owned by Homes Tasmania on the eastern side of Cambridge Road, Mornington. The site is surrounded by 10A Binalong Road, which is a separate title also owned by Homes Tasmania but zoned General Residential. The site has a benefiting right of way over 10A Binalong Drive as shown in Figure 2 below.

Address	Certificate of Title	Site Area	Owner
10 Binalong Road	23205/1	749m <sup>2</sup>	Homes Tasmania

Figure 1 – The land (source: theList.tas.gov.au)

**Figure 2 – Certificate of title folio plan for the site (Lot 1) showing existing benefiting right of way from Binalong Road via 10A Binalong Road (Source: Certificate of title CT 23205/1)**

The land is located within the municipality of Clarence and is subject to the *Tasmanian Planning Scheme – Clarence Local Provisions Schedule (planning scheme)*.

The site exists with a single storey yellow concrete brick building that was once used as the former Warrane Senior Citizens Club and Clarence Lions Club. The Warrane Senior Citizens closed in 2019 following very low membership numbers (2). The Clarence Lions Club relocated to the refurbished Rokeby Neighbourhood Centre.

Since 2018 the site has been used by a Meals on Wheels service. This use subsequently relocated to The Grace Centre in Rokeby in late 2024.

The surrounding title at 10A Binalong Road currently accommodates 12 multiple dwellings in two separate, two storey buildings to the south west of the site, closer to the Cambridge Road frontage.

The site is surrounded by General Residential zoned areas of Mornington and Warrane on both sides of Cambridge Road. The Warrane Primary School adjoins 10A Binalong Road and is approximately 50m east of the site.

The site and the surroundings are described in the plan in Figure 1 and the photos in Figures 3 and 4 below.

*Figure 3 – The existing concrete brick building on the site at 10 Binalong Road as viewed looking northwest from the adjacent right of way carpark area within 10A Binalong Road.*

*Figure 4 – View from the elevated areas of 10A Binalong Road, looking west. The existing yellow brick building on the site is visible on the right of picture. The carparking, landscaped areas and red roofed dwellings are located on the adjacent title, 10A Binalong Road that surrounds the landlocked site.*

*Figure 5 - Existing Zoning (Source: theList)*

As shown in Figure 5, the site is currently zoned Community Purpose. The surrounding land is zoned General Residential. The Central Business zoned land of Rosny Park is approximately 750m to the west of the site. The Warrane Primary School Land is zoned Community Purpose.

### 1.2. Zoning History

According to advice received from Clarence City Council dated 15 April 2025, the zoning of the land has transitioned through several iterations of the planning scheme. The site was formerly zoned Residential under both the Eastern Shore Planning Scheme 1963 and the Clarence Planning Scheme 2007, prior to being reclassified as Community Purpose under the Clarence Interim Planning Scheme 2015. The Community Purpose Zone was retained under the Tasmanian Planning Scheme – Clarence 2021. Council notes that the Community Purpose Zone was applied in 2015 as the most appropriate fit during the scheme translation, as the zone did not previously exist.

### 1.3. Description of Housing Land Supply Order

It is proposed that the Minister make a housing supply order under the HLSA:

1. to declare the subject land housing supply land in accordance with Section 4(1); and
2. include an order in accordance with Section 6 to declare the area of land at 10 Binalong Road contained within Certificate of Title 23205/1 in Appendix A to be zoned General Residential under the Clarence Local Provisions Schedule.

## 2. PART 2 – CONSIDERATION OF THE LAND

### 2.1. Government land (Section 5(1) HLSA)

The land is eligible government land pursuant to Section 5(1) of the Act in that:

- it is government land owned by Homes Tasmania, and
- the land is government land that was transferred from the Department of Health and Human Services to Homes Tasmania on 26 October 2020, after the commencement date of the HLSA 20 July 2018.

And the land is not:

- reserved land under the *Nature Conservation Act 2002*;
- managed under the *National Parks and Reserves Management Act 2002*;
- managed under the *Wellington Park Act 1993*;
- permanent timber production zone land, within the meaning of the *Forest Management Act 2013*;
- future potential production forest land, within the meaning of the *Forestry (Rebuilding the Forest Industry) Act 2014*; or
- owned in fee simple by the body corporate continued under section 4 of the *Tasmanian Development Act 1983*.

### 2.2. Need for the land (Sections 5(2)a) HLSA)

Consistent with the Purpose under s.2(a) of the *Homes Tasmania Act 2022* there is a need for the land to be made available to enable the provision of housing assistance to eligible persons.

The Department of Treasury and Finance population projections, May 2024 indicate that Clarence will experience the largest population increase in Tasmania with 12,218 additional people expected over 30 years until 2053.

As at February 2025, there were 437 applicants on the Housing Register seeking accommodation in the Clarence LGA as their first preference. Of these applicants, 78% are seeking either one- or two-bedroom accommodation

It is intended that the land will be developed in conjunction with 10A Binalong Road to provide new medium density social housing to meet a growing demand for smaller, more accessible dwellings suitable for single occupants or small families consistent with Priority 1 of the Tasmanian Housing Strategy 2023-2043 and the Tasmanian Housing Action Plan 2023-2027.

### 2.3. Suitability of the land (Section 5(2)b) HLSA)

The land fulfills the requirements of ss.5(2)(b) of the HLSA in that it is located in close proximity to commercial and employment services of Clarence and Greater Hobart more broadly as shown in Figure 6 including the following:

- 250m to the local shopping strip at Edgeworth Street, Warrane to the northwest
- 350m to the Local Business services at 48 Binalong Road to the east
- 750m to commercial and community services of Rosny Park to the west;
- 1.5km to commercial and industrial services at Mornington to the east;
- 2km to commercial and community services at Bellerive to the south west; and
- 6.5km to CBD of Hobart.

*Figure 6 - Proximity to Commercial and Employment Services*

#### 2.4. Accessibility to Public Transport (Section 5(2)b) HLSA)

The site is suitable for residential purposes by virtue of its very good access to numerous Metro, public transport bus routes that pass the site. Bus stop Nos. 4135 and 4136 on Cambridge Road are within approximately 100m of the site to the west. These bus stops provide regular and convenient transport to Rosny Park and the Greater Hobart Metro network. See Figure 7 below.

*Figure 7 - The site is located on numerous Metro bus routes (Source: theList)*

## 2.5. Owners Consent (Section 5(3) & (4) HLSA)

The submission is accompanied by consent from the Chief Executive Officer of Homes Tasmania in Appendix C.

## 2.6. The proposal is consistent with State Policies and the Southern Tasmania Regional Land Use Strategy (Section 6(1)a) HLSA)

The proposed General Residential zoning is considered consistent with State Policies and the relevant Regional Land Use Strategy as set out in the following sections:

### 2.6.1. State Policies

The following State Policies are made under the State Policies and Projects Act 1993:

- State Policy on the Protection of Agricultural Land 2009;
- State Policy on Water Quality Management 1997; and
- Tasmanian State Coastal Policy 1996.

The National Environmental Protection Measures are automatically adopted as State Policies under the State Policies and Projects Act 1993.

The following section examines the State Policies as they apply to this proposal.

### 2.6.2. State Policy on the Protection of Agricultural Land 2009

The purpose of the State Policy on the Protection of Agricultural Land 2009 is:

*“to conserve and protect agricultural land so that it remains available for the sustainable development of agriculture, recognising the particular importance of prime agricultural land”.*

*Comment*

The proposal does not involve agricultural land and does not conflict with this Policy.

### 2.6.3. State Coastal Policy 1996

The State Coastal Policy 1996 is created under the State Policies and Projects Act 1993.

*Comment*

The site is located more than 1km from the closest part of the coast at Kangaroo Bay, approximately 1.4km to the west. The site is therefore outside the coastal zone and the Coastal Policy does not apply.

### 2.6.4. State Policy on Water Quality Management 1997

The State Policy on Water Quality Management is concerned with achieving ‘sustainable management of Tasmania’s surface water and groundwater resources by protecting or enhancing their qualities while allowing for sustainable development in accordance with the objectives of Tasmania’s Resource management and Planning System’.

*Comment*

The zoning will allow for suitable stormwater treatment to be incorporated in future development as required by the planning scheme and *Urban Drainage Act 2013*. Such measures will ensure the long-term quality of stormwater runoff is efficiently managed to protect water quality consistent with this Policy.

#### 2.6.5. National Environment Protection Measures

The National Environmental Protection Measures relate to:

- Ambient air quality;
- Ambient marine, estuarine and fresh water quality;
- The protection of amenity in relation to noise;
- General guidelines for assessment of site contamination;
- Environmental impacts associated with hazardous wastes; and
- The re-use and recycling of used materials.

##### *Comment*

The listed NEPMs do not raise specific matters that are relevant to the proposed zoning.

#### **Tasmanian Planning Policies**

There are no relevant Tasmanian Planning Policies.

#### **Southern Tasmania Regional Land Use Strategy**

The Southern Tasmanian Regional Land Use Strategy 2010-2035 (STRLUS) addresses the relevant issues regarding the need for new residential growth, 50% infill within the Urban Growth Boundary (UGB) and residential densification within designated areas on transport routes and close to employment and community services. The proposal is considered consistent with key regional policies that deal with these matters as follows:

##### ***Settlement and residential development***

The proposal is considered consistent with the following Regional Policies for Settlement and Residential Development:

*SRD 1 Provide a sustainable and compact network of settlements with Greater Hobart at its core, that is capable of meeting projected demand.*

*SRD 1.1 Implement the Regional Settlement Strategy and associated growth management strategies through the planning scheme.*

*SRD 2 Manage residential growth for Greater Hobart on a whole of settlement basis and in a manner that balances the needs for greater sustainability, housing choice and affordability.*

*SRD 2.1 Residential growth for Greater Hobart is to occur through 50% infill development and 50% greenfield development.*

##### *Comment*

The land is located within the UGB and Residential Densification Area shown on Map 10 of the STRLUS (Figure 8 below) and will provide for residential infill and a diversity of housing choice.

**Figure 8 - Urban Growth Boundary, Attachment 1 - Map 10: Large Scale, Residential Strategy for Greater Hobart, STRLUS**

The rezoning also reflects the site's historic use and zoning pattern, which included residential zoning under earlier iterations of the Clarence planning scheme.

#### **Residential infill**

The proposal providing for infill residential development will contribute towards the 1987 dwelling target for infill development in Clarence by 2035 under the following Regional Policy SRD 2.7:

*SRD 2.7 Distribute residential infill growth across the existing urban areas for the 25 year planning period as follows:*

*Glenorchy LGA 40% (5300 dwellings)*

*Hobart LGA 25% (3312 dwellings)*

*Clarence LGA 15% (1987 dwelling)*

*Brighton LGA 15% (1987 dwellings)*

*Kingborough LGA 5% (662 dwellings)*

#### **A greater mix of residential dwelling types**

The proposed General Residential Zoning will provide for an identified need in the Tasmanian Housing Strategy for smaller, more accessible dwellings suitable for single occupants, small families and an aging population. This is also consistent with the following Regional Policy SRD 2.9:

*SRD 2.9 Encourage a greater mix of residential dwelling types across the area with a particular focus on dwelling types that will provide for demographic change including an ageing population.*

### ***Provision of affordable housing***

The proposal will support the supply of affordable housing consistent with the following Regional Policy SRD 2.11:

*SRD 2.11 Increase the supply of affordable housing.*

### **Social Infrastructure**

The proposal is not considered to affect the attainment of Regional Policy SI 1 to provide high quality social and community facilities to meet the education, health and care needs of the community and facilitate healthy, happy and productive lives in that:

The Clarence Lions Club and Meals on Wheels activities have relocated from the site to alternate facilities in Rokeby and the site is no longer in community use. There is no identified need for further community infrastructure to be provided on this site.

The site is in close proximity to the community services and other Community Purpose zoned land at of Rosny Park (1.7ha), 900m west of the site and the Warrane Primary School site (4ha), 50m to the east.

### **2.7. The site is not significantly restricted by any code that applies to the land –(Section 6(1)b HLSA)**

The site of the proposed zoning is subject to an Airport obstacle limitation overlay. Future development for medium density residential development on this site with a maximum elevation of approximately 70m AHD will be well below the Obstacle limitation level of 147m AHD and would therefore be exempt from the Safeguarding of Airports Code.

There are no other code overlays that affect the site.

### **2.8. The Intended zoning would further the objectives of Schedule 1 of LUPAA (Section 6(1)c HLSA)**

The proposed zoning is considered to further the objectives of Schedule 1 of the Act as follows:

#### **Part 1 Objectives**

*(a) To promote the sustainable development of natural and physical resources and the maintenance of ecological processes and genetic diversity;*

#### **Comment**

The proposal promotes the objectives for sustainable development of land through allowing for the efficient use of serviced and well-located land for residential use and development. The site is largely occupied by the existing building, associated pathways and infrastructure. There are no substantial trees or natural values on the site. The proposal is considered to further this Objective.

*(b) To provide for the fair, orderly and sustainable use and development of air, land and water;*

#### **Comment**

The proposal for infill development on this underutilised site to support affordable housing outcomes is considered fair, orderly and sustainable use and development and will further this objective.

*(c) To encourage public involvement in resource management and planning;*

#### **Comment**

Consideration of the proposal will involve notice to interested persons and the right to make submissions for consideration by the Minister before the proposed order is laid before both Houses of Parliament. The proposal will encourage public involvement consistent with the processes set out under the HLSA and will further this objective.

*(d) To facilitate economic development in accordance with the objectives set out in paragraphs (a), (b) and (c) above.*

**Comment**

As stated above, the proposal represents consolidated urban development with access to existing road, reticulated and community infrastructure. It avoids sensitive environmental areas and will facilitate affordable housing and economic development outcomes. Rezoning of the land for residential purposes allows for economic development including the construction phase of site development and by providing social and affordable housing options. For these reasons the proposal is considered to further this Objective.

*(e) To promote sharing of responsibility for resource management and planning between the different spheres of Government, the community and industry in the State.*

**Comment**

The proposal will be referred to interested persons for comment including Council, TasWater, Aboriginal Heritage Tasmania and as well as the Heads of relevant Agencies as required by s.11 of the HLSA. The proposal is considered to further this Objective.

**2.8.1. Schedule 1 Part 2**

*(a) To require sound strategic planning and co-ordinated action by State and local Government;*

**Comment**

As demonstrated throughout this assessment the proposal is consistent with the STRLUS, The Tasmanian Housing Strategy and represents sound strategic planning that will further this Objective.

*(b) To establish a system of planning instruments to be the principal way of setting objectives, policies and controls for the use, development and protection of land;*

**Comment**

The proposal will apply the General Residential Zone under the planning scheme to set the objectives, policies and controls for the site consistent with relevant strategic planning and this Objective.

*(c) To ensure the effects on the environment are considered and provide for explicit consideration of social and economic effects when decisions are made about the use and development of land;*

**Comment**

The proposal is considered to further this Objective in that it will provide for a coordinated residential development of the land with the surrounding Homes Tasmania title at 10A Binalong Road. It will also contribute to broader social, environmental and economic benefits as a result of the proposed efficient use of serviced land.

*(d) To require land use and development planning and policy to be easily integrated with environmental, social, economic, conservation and resource management policies at State, regional, and municipal levels;*

**Comment**

As discussed above the proposal will further strategic planning policies and is consistent with this Objective.

*(e) To provide for the consolidation of approvals for land use or development and related matters, and to co-ordinate planning approvals with related approvals;*

**Comment**

The proposal does not conflict with this objective.

*(f) To secure a pleasant, efficient and safe working, living and recreational environment for all Tasmanians and visitors to Tasmania;*

**Comment**

The proposal will assist in the provision of a diversity of social and affordable housing outcomes within close proximity to surrounding services. It furthers this objective.

*(g) To conserve those buildings, areas or other places which are of scientific, aesthetics, architectural or historical interest, or otherwise of special cultural value;*

**Comment**

The proposal is accompanied by a desktop assessment by Aboriginal Heritage Tasmania (Appendix B) that advises there is no known Aboriginal heritage recorded within the property.

*(h) To protect public infrastructure and other assets and enable the orderly provision and co-ordination of public utilities and other facilities for the benefit of the community;*

**Comment**

The land is within an existing serviced area and will be referred to TasWater for comment pursuant to Section 11(c) of the HLSA. The proposal will further affordable housing outcomes for the benefit of the community consistent with this Objective.

*(i) To provide a planning framework which fully considers land capability;*

**Comment**

The proposal relates to land within an established residential area and is not subject to any mapped hazard overlays under the planning scheme.

The land is considered appropriate for future residential use and development subject to the normal planning scheme considerations of the General Residential Zone and the provisions of the relevant Codes of the planning scheme.

## 2.9. The proposed zoning is consistent with the Purpose of the General Residential Zone and the section 8A guidelines of the Land Use Planning and Approvals Act (Section 6(1)d) HLSA

### Zone Purpose

The proposal to rezone the land to General Residential is consistent with the following Purpose statements of the Inner Residential Zone under the State Planning Provisions:

*8.1.1 To provide for residential use or development that accommodates a range of dwelling types where full infrastructure services are available or can be provided.*

*8.1.2 To provide for the efficient utilisation of available social, transport and other service infrastructure.*

Specifically, the proposal will provide for a range of dwelling types and efficient use of serviced land close to transport and available community infrastructure.

### Section 8A Guidelines

This proposal has been assessed against the Section 8A Zone Application Guidelines of the Local Provisions Schedule under the Tasmanian Planning Scheme.

*GRZ 1 - The General Residential Zone should be applied to the main urban residential areas within each municipal area which:*

- (a) are not targeted for higher densities (see Inner Residential Zone); and*
- (b) are connected, or intended to be connected, to a reticulated water supply service and a reticulated sewerage system.*

### Assessment

The site is considered to satisfy the intent of GRZ 1 for the following reasons:

- It is located within an established urban area and is serviced by reticulated water, sewerage, and stormwater infrastructure.
- It is situated in close proximity to the Clarence CBD and its principal activity centre, which offers a diverse range of services and community facilities.
- While it could be argued that the site also meets criteria for the Inner Residential Zone—given its position on Cambridge Road (a high-frequency public transport corridor) and within an identified densification area under Map 10 of the Southern Tasmania Regional Land Use Strategy (STRLUS)—the site is relatively small and is surrounded by existing General Residential zoning.

Given this context, the application of the General Residential Zone is considered the most appropriate and contextually consistent planning outcome for the site at this time.

*GRZ 2 - The General Residential Zone may be applied to greenfield, brownfield or greyfield areas identified for future urban residential use and development, provided that:*

- (a) the land is currently zoned General Residential under an interim planning scheme;*
- (b) is within an equivalent zone under a section 29 planning scheme; or*
- (c) is justified through a relevant regional land use strategy, or supported by detailed local strategic analysis consistent with that strategy and endorsed by the council; and*
- (d) the land is, or will be, connected to a reticulated water supply and sewerage system.*

### Assessment:

The subject site, currently zoned Community Purpose, is best characterised as a greyfield site under the Southern Tasmania Regional Land Use Strategy (STRLUS)—that is, underutilised, commercial land within an urban area that is not contaminated.

The proposal supports infill residential development and will contribute to the supply of affordable housing. This is consistent with the Regional Settlement Strategy and aligns with the following STRLUS policies:

- SRD 1.1 – Ensure settlement patterns support the efficient use of existing infrastructure;*
- SRD 2.1 – Increase housing supply within established urban areas;*
- SRD 2.7 – Promote a diversity of housing types; and*
- SRD 2.11 – Encourage the integration of affordable housing in appropriate locations.*

*GRZ 3 - The General Residential Zone should not be applied to land that is highly constrained by hazards, natural values (such as threatened vegetation communities), or other impediments to development consistent with the zone's purpose—unless such constraints have been assessed and appropriately managed during the rezoning process.*

**Assessment:**

The site is generally well-suited for residential development. It is not constrained by hazards or natural values, has a moderate north-westerly aspect and access to reticulated water and sewer services, which can be augmented as needed to support future development.

**2.10. Consideration of any environmental, economic and social impacts (Section 6(1)e) HLSA)**

There is adequate supply of other Community Purpose zoned sites close to the site as discussed in section 2.6 above.

The rezoning of the land will allow for residential development which would facilitate affordable housing and associated economic development including an increase in housing stock.

Positive social impacts from the proposal include an increase in the supply of affordable residential land, which contributes to avoiding homelessness and housing stress. The General Residential Zone includes appropriate standards of development and residential amenity.

The proposal will further objectives for urban consolidation and affordable housing that will contribute to broader social, environmental and economic benefits consistent with this requirement.

**2.11. Consideration of the effect on Aboriginal and cultural heritage (Section 6(1)e) HLSA)**

The proposal is accompanied by advice from Aboriginal Heritage Tasmania (Appendix B) that concludes that the property has a very low likelihood of Aboriginal heritage being present.

The proposal will be referred to Aboriginal Heritage Council for comment pursuant to ss.11(g) of the HLSA.

**2.12. Consideration of land use conflict on the site and on land adjacent to the site (Section 6(1)f) HLSA)**

The proposed rezoning of this small site to General Residential, consistent with the zoning of the adjoining title at 10A Binalong Road and the broader Warrane and Mornington areas, will not result in any land use conflict. The surrounding land uses are residential and educational, and there are no nearby industrial or other activities with the potential to generate environmental harm or amenity impacts. Accordingly, the proposed zoning is compatible with the existing and intended land use context.

**2.13. Dwelling and lot density conformity to suburban density (Section 6(2)a HLSA)**

The proposal will apply the provisions for the General Residential Zone under the State Planning Provisions.

**2.14. Other zones intended for the site (Section 6(2)b) HLSA)**

The circumstances of this land do not require the application of any other complimentary zones. It is considered appropriate that the General Residential Zone apply across the full extent of the land.

## 2.15. Modified planning provisions (Section 7(1) & (2) HLSA)

It is not considered that the circumstances of this land warrant modification of a relevant housing provision.

## 2.16. Consultation with interested persons(Section 10 HLSA)

Interested persons (s.10 - s.12)

The interested persons in the case of this land are considered to be:

- Clarence City Council
- Heads of Agency that have an interest in whether or the manner in which the land ought be used and or developed including the Department of Education Children and Young People in relation to the nearby Warrane Primary School site;
- The Principal of Warrane Primary School.
- TasWater;
- Tas Networks;
- the owners and occupiers of the properties adjoining and near the site as shown by the green stars on Figure 9;
- Tasmania Fire Service;
- Tasmanian Heritage Council;
- Aboriginal Heritage Council

Contact details of the suggested interested persons are provided in Appendix D.

*Figure 9 – Nearby owners and occupiers suggested for notification*

# Aboriginal Heritage SEARCH RECORD

## **This search for**

WARRANE SENIOR CITIZENS' CLUB 10 BINALONG RD  
MORNINGTON TAS 7018 (PID 7176690)

**has not identified any registered Aboriginal relics or apparent risk of impacting registered Aboriginal relics.**

This Search Record has been requested for Tom Fletcher at 12:10PM on 27 February 2025 and delivered to [thomas.fletcher@homes.tas.gov.au](mailto:thomas.fletcher@homes.tas.gov.au).

This Search Record expires on 27 August 2025.

Your personal Search Identification Number is PS0373980.

Please be aware that the absence of records on the [Aboriginal Heritage Register](#) for the nominated area of land does not necessarily mean that the area is devoid of Aboriginal relics. If at any time during works you suspect the existence of Aboriginal relics, cease works immediately and contact Aboriginal Heritage Tasmania for advice.

It is also recommended that you have the Unanticipated Discovery Plan on hand during any ground disturbance or excavation activities, to aid you in meeting requirements under the Aboriginal Heritage Act 1975 should Aboriginal relics be uncovered. There are requirements that apply under the [Aboriginal Heritage Act 1975](#). It is an offence to destroy, damage, deface, conceal or otherwise interfere with relics without a permit granted by the Minister. There is an obligation to report findings of relics as soon as practicable.

This Search Record is confirmation that you have checked the Aboriginal Heritage Property Search website for this property. This Search Record will expire in six months from the search date.

If you have any queries please do not hesitate to contact [Aboriginal Heritage Tasmania](#) on **1300 487 045** or at [aboriginal@heritage.tas.gov.au](mailto:aboriginal@heritage.tas.gov.au).
